

Deputy President (Clubs & Societies) Report
A Report by Alistair Cott

New Clubs Committee

Out of the four prospective clubs four were created, they are Libertarian, Street Magic, and Assassins Guild. The next meeting is on the 7th of December and I have two prospective clubs wanting to come along; Knit Soc, and Music Technology.

Club Surgery

Again a reminder about the Surgery hours Chris and I have in SAC on Wednesdays. For the last four weeks Chris and I have been holding a club surgery session, this is where we would be in the same place at the same time. This is for club officers to come along and ask any questions or queries they may have.

Database Work

I have been working closely with the Union's IT support to link it into the other main databases allowing speeding up of processing times for income forms.

Health & Safety in Sport Committee Meeting

The first Health and Safety Committee met on Wednesday the 21st of November, this received reports on the different part of the Union and Sport Imperial and how safe they have been over the summer and throughout the first term.

BUSA London Division Meeting/ICSC Meeting

On the 22nd of November there were the third BUSA and ICSC meetings which were held at UCL. I raised points about the starting times of matches that teams had a long distance to get to fixtures. This led to BUSA possibly allowing a later start time so teams had enough time to get to the fixture.

Clubs and Societies Board

On the 26th of November there was the third CSB meeting, at which points about the New Clubs Committee were raised. These revolved mainly about the allocation of newly created club to the most appropriate CSC/FU. Plus what the route of appeal against the decision of the committee was.

HPR Meeting

On the 27th of November the Hyde Park Relay and I organisers met with Neil Mosley to talk about what Sport Imperial could do for the event. The Union has been booked out for the sleeping of the competitors.

Central Sport & Leisure Advisory Group Committee

This meeting brings together all the other internal meetings and so also received reports about the facilities and Health and Safety.
